

COLLECTION 02 / SEPTEMBER 2026

Architecture in Relief

83 designs | One design per page

Explore designs, materials and available dimensions. Images illustrate design concepts. Confirm final dimensions, material, carving depth and construction in the approved drawing before manufacture. Prices are supplied by quotation.

Custom sizes and finishes available by enquiry.
info@icebreaker.co.in | Rajpura, Punjab

IB-0021 | Viridian

Original wall panels

Botanical architectural wall

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0022 | Lattice

Original wall panels

Quiet geometric dining wall

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0023 | Vector

Original wall panels

Graphic linear wall system

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0024 | Monolith

Original wall panels

Textured media-wall surface

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0025 | Hush

Original wall panels

Layered lounge wall panels

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0026 | Aperture

Original wall panels

Offset circular aperture relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0027 | Drift

Original wall panels

Sweeping dune-contour wall

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0028 | Span

Original wall panels

Interlocking architectural arches

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0029 | Mora

Original wall panels

Depth-graded elliptical rib field

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0030 | Quietude

Original wall panels

Nested pebble-ring composition

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0109 | Rill

Original wall panels

Meandering stream grooves

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0110 | Strata

Original wall panels

Layered sediment bands

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0111 | Helio

Original wall panels

Corner-radiating arcs

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0112 | Tecton

Original wall panels

Sliding rectangular planes

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0113 | Aero

Original wall panels

Aerodynamic ribbon channels

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0114 | Weft

Original wall panels

Over-under woven relief grid

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0115 | Canyon

Original wall panels

Deep cuts and raised mesas

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0116 | Nimbus

Original wall panels

Overlapping contour islands

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0117 | Circuit

Original wall panels

Rectilinear paths and nodes

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

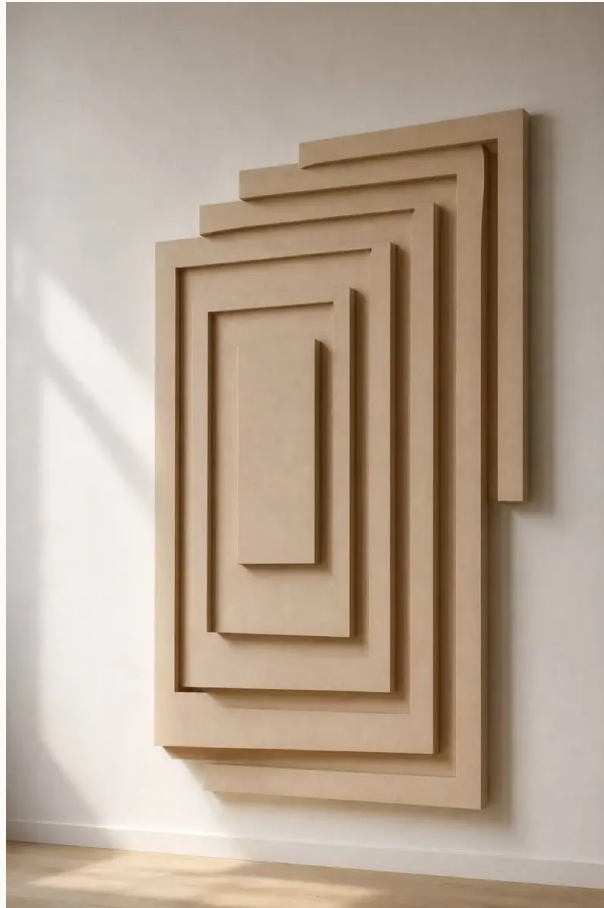

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0118 | Echo

Original wall panels

Nested drifting frames

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0119 | Dune

Original wall panels

Shallow flowing dune field

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0120 | Prismata

Original wall panels

Multi-direction triangular ridges

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0121 | Orbis

Original wall panels

Graduated spherical domes

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0122 | Flux

Original wall panels

Interlocking S-curve relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0123 | Terrace

Original wall panels

Stepped horizontal shelves

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0124 | Talus

Original wall panels

Layered stone-slope contours

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0125 | Fjord

Original wall panels

Vertical inlet through topographic planes

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0126 | Mesa

Original wall panels

Terraced rectangular plateaus

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0127 | Vellum

Original wall panels

Overlapping folded timber planes

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0128 | Oriel

Original wall panels

Projecting rounded architectural bays

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0129 | Caelum

Original wall panels

Sweeping arcs and circular insets

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0130 | Brae

Original wall panels

Rising diagonal hillside ridges

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0131 | Sinter

Original wall panels

Merged mineral-cell relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 12 mm

Material: 12 mm MDF, or HDHMR where it meets damp

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0274 | Flowing Contour Wall Panel

Wave boards

Flowing channels and nested curves create an organic relief surface with alternating bands of light and shadow. A second image shows this layout in a lighter finish; it is kept as a variant, not a separate product.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

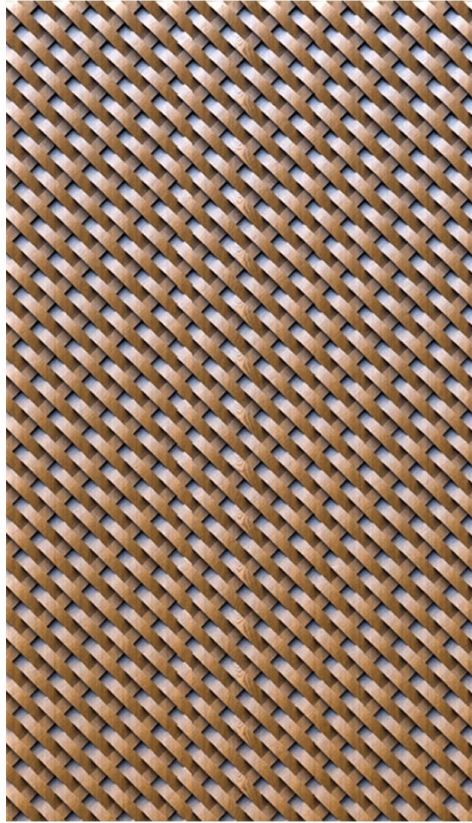

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0275 | Diagonal Weave Wall Panel

Wave boards

Closely repeated diagonal elements form a woven, basket-like surface pattern.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

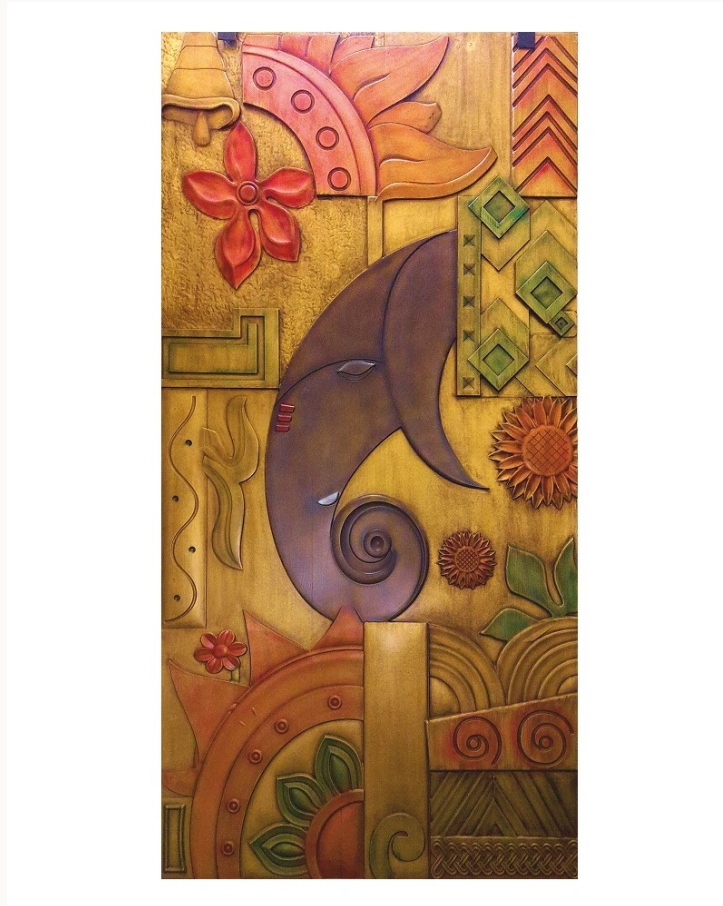

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0276 | Colourful Motif Wall Panel

Wave boards

A colourful composition combines sweeping curves, floral details and geometric accents in a tall decorative panel.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

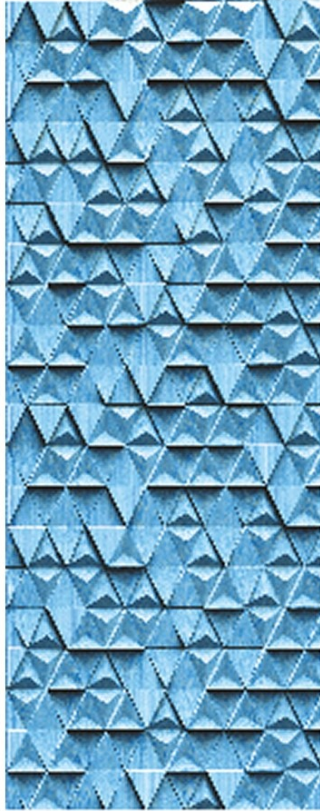

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0277 | Triangular Facet Wall Panel

Wave boards

Rows of small triangular facets produce a densely textured geometric surface.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

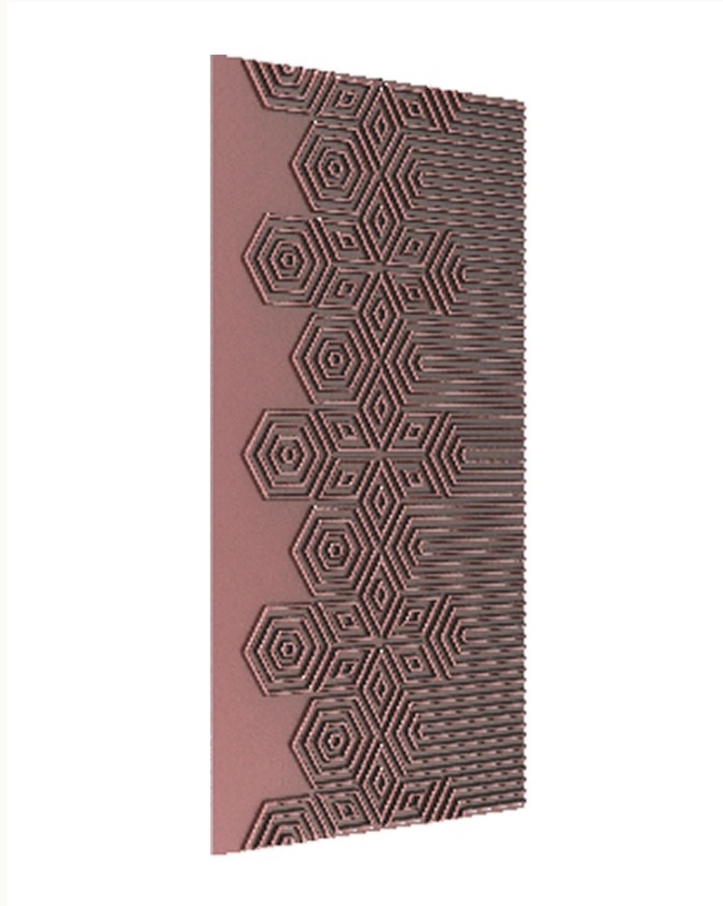

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0278 | Hexagonal Line Wall Panel

Wave boards

Nested hexagonal outlines form an asymmetric patterned field beside a quieter border.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0279 | Leaf Branch Wall Relief

Wave boards

Raised leafy branches spread across a textured background in a low, landscape-format composition.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0280 | Sweeping Ridge Wall Panel

Wave boards

Broad flowing ridges change direction across the surface, creating a wave-like sculptural pattern.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0351 | Recessed Pyramid Wall Panel

Wave boards

A grid of deep square recesses is shaped with fine diagonal ridges and projecting central forms.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0352 | Angular Facet Wall Panel

Wave boards

Large triangular planes intersect with fine parallel textures for a folded geometric appearance.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

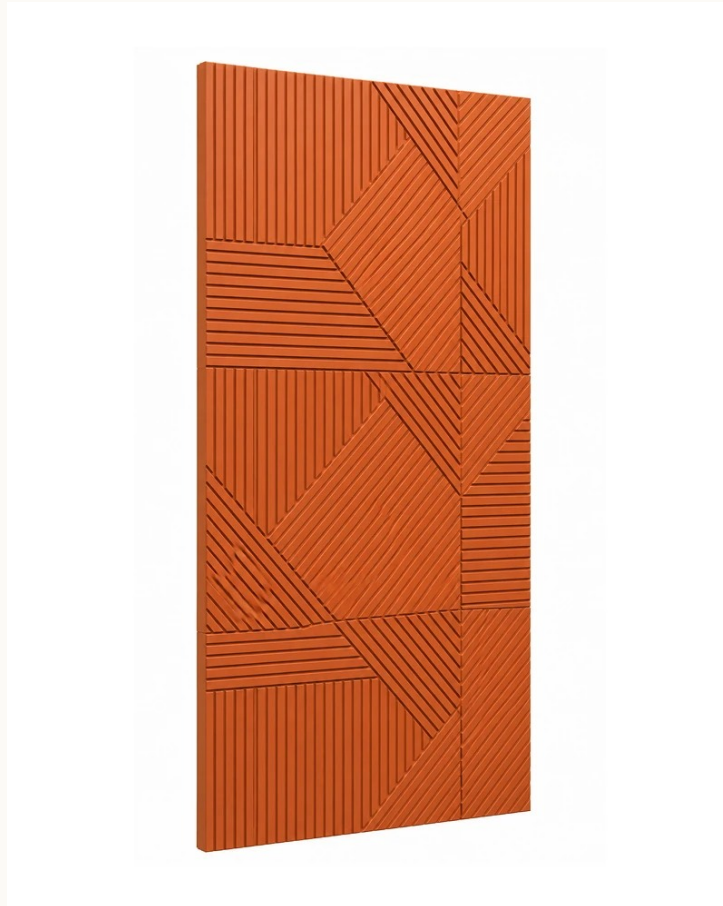

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0353 | Directional Groove Wall Panel

Wave boards

Fine grooves change direction within broad angular fields, creating an interlocking geometric composition.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0354 | Offset Block Wall Panel

Wave boards

Rectangular blocks project by different amounts to create a staggered architectural surface.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0355 | Swept Leaf Wall Panel

Wave boards

Long curved ridges open around a central leaf-like form, creating a fluid vertical relief.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0031 | Rudra

Sacred reliefs

Shiva sculptural relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0032 | Virasat

Sacred reliefs

Narrative heritage panel

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0033 | Madhav

Sacred reliefs

Radha-Krishna relief artwork

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0034 | Tirth

Sacred reliefs

Temple landscape carving

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

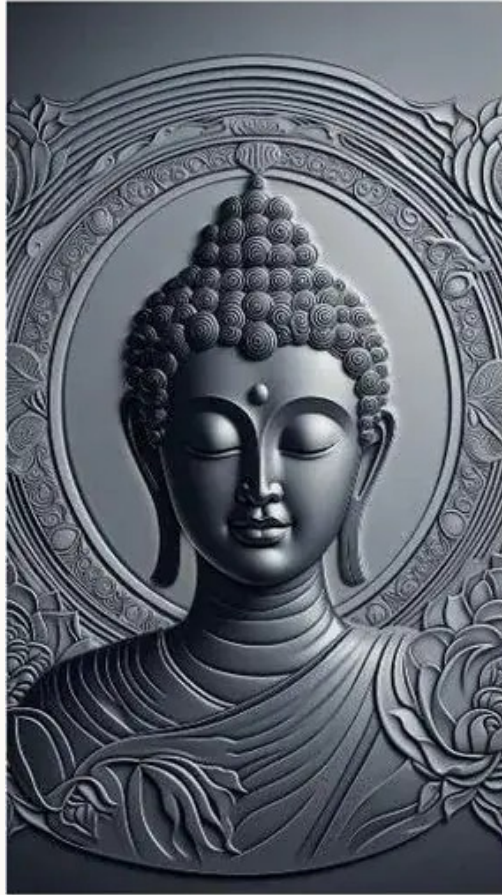

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0035 | Bodhi

Sacred reliefs

Buddha medallion relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0036 | Kamala

Sacred reliefs

Twelve-petal layered lotus mandala

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0037 | Prana

Sacred reliefs

Concentric open breath-wave relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0038 | Aaroh

Sacred reliefs

Ascending steps and radiant arch

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0039 | Nirva

Sacred reliefs

Continuous-line meditation relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0040 | Jyoti

Sacred reliefs

Nested sacred flame composition

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0132 | Ananta

Sacred reliefs

Continuous endless-knot relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0133 | Dhara

Sacred reliefs

Nested sacred water drops

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0134 | Mandara

Sacred reliefs

Eight-point temple star

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0135 | Triveni

Sacred reliefs

Three-river bindu composition

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0136 | Shikhar

Sacred reliefs

Ascending temple spires

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0137 | Arka

Sacred reliefs

Alternating sun-ray disc

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0138 | Chandra

Sacred reliefs

Crescent within circular halo

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0139 | Torana

Sacred reliefs

Layered ceremonial arch

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0140 | Kalp

Sacred reliefs

Nine-branch sacred tree

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0141 | Suparna

Sacred reliefs

Geometric upward wings

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0142 | Shankha

Sacred reliefs

Five-chamber conch spiral

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0143 | Sudar

Sacred reliefs

Sixteen-spoke sacred wheel

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0144 | Gyan

Sacred reliefs

Open form with rising rays

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0145 | Dhyana

Sacred reliefs

Seven linked meditation circles

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0146 | Moksha

Sacred reliefs

Opening stepped gateway

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0147 | Pranava

Sacred reliefs

Abstract flowing resonance curve

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0148 | Advaita

Sacred reliefs

Mirrored arcs resolving into one axis

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0149 | Nitya

Sacred reliefs

Continuous endless-ribbon relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0150 | Soma

Sacred reliefs

Crescent and layered lotus relief

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0151 | Tejas

Sacred reliefs

Central flame with stepped rays

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0152 | Aumkara

Sacred reliefs

Concentric resonance-wave mandala

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0153 | Sattva

Sacred reliefs

Eight-petal geometric mandala

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0154 | Vihara

Sacred reliefs

Ascending nested temple portals

Dimensions: 8 ft × 4 ft

Face / panel thickness: 18 mm

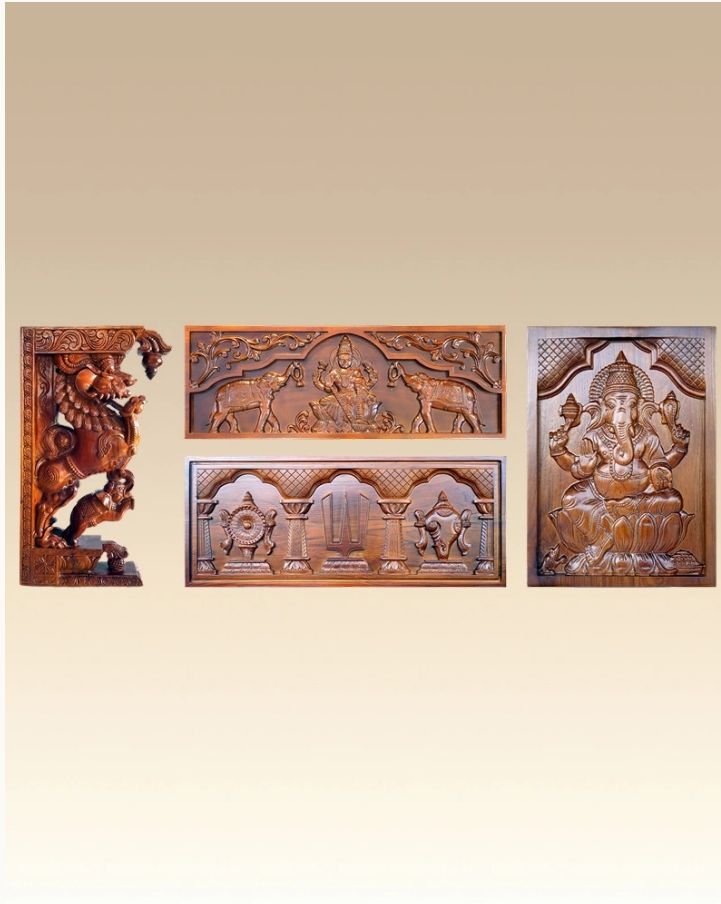

Material: 18 mm HDHMR, laminated thicker for deep relief

Finish: Customer-selected colour / stain / polish

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0281 | Devotional Relief Concept Set

Sacred reliefs

This reference image presents several different devotional relief compositions together, rather than one finished product.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0282 | Calligraphy Panel Concept Set

Sacred reliefs

A tall framed panel and a separate horizontal inscription panel are shown together as a reference set.

Dimensions: To be confirmed — provide required width and height

Face / panel thickness: Confirmed with the approved design

Material: Selected and confirmed in the quotation

Finish: Selected and confirmed in the quotation

Ordering: Share the product code and required size. Final construction and CNC machining details are confirmed after design and material approval.

IB-0283 | Sacred Architecture Concept Set
